

Release Agreement

The School of Artificial Intelligence and the School of Advanced Materials Innovation at the University of Science and Technology Beijing have constructed a new intermediate phase segmentation benchmark for microstructural images of zinc-based absorbable biomaterials, named IPSM-Bench. Any researcher who requests the data must sign this agreement and agree to comply with the restrictions listed in this document.

The researcher(s) agree to the following restrictions:

1. The annotation data will be used only for scientific research. No unauthorized commercial use or distribution of the annotation data is allowed.
2. All use of the data must cite the following paper: Jinglin Xu, Shangyan Zhao, Jiabo Wang, Xinghong Mu, Yulong Lei, Jiacheng Zhang, Hongbo Sun, and Yageng Li, "IPSM-Bench: A New Intermediate Phase Segmentation Benchmark in Microstructure Images of Zinc-based Absorbable Biomaterials", The 35th International Joint Conference on Artificial Intelligence (IJCAI 2026), Bremen, Germany, August 15–21, 2026.
3. The School of Artificial Intelligence and the School of Advanced Materials Innovation, University of Science and Technology Beijing, reserve all rights to the final explanation.
